RODNEY STRONG

SONOMA COUNTY

an Early Pioneer

Rod Strong recognized Sonoma County as an ideal place to grow wine grapes as far back as 1971, when he planted our first vineyard in Alexander Valley. Today, we proudly farm 11 estate vineyards spanning 1,115 acres. Across these sites, the fruit expresses the finest qualities of each vineyard's terroir, allowing us to showcase the very best of Sonoma County in every wine—from Cabernet and Chardonnay to Red Blends and beyond.

Crafting and blending terroir-specific wines allows us to highlight the exceptional quality of Sonoma County. As stewards of these remarkable vineyard sites, we are committed to sustainable farming practices that help preserve the health of our land for generations to come. We are proud to be one of the few wineries that produces wines from such a diverse collection of world-class vineyards. The combination of climate, soils, and remarkable vineyard diversity has made Sonoma County a world-renowned winegrowing region, producing exceptional wines vintage after vintage.

We are the embodiment of Sonoma County quality and craftsmanship.
